

Hintlesham & Chattisham Multi Use Games Area (MUGA)

Some Considerations for MUGA Position

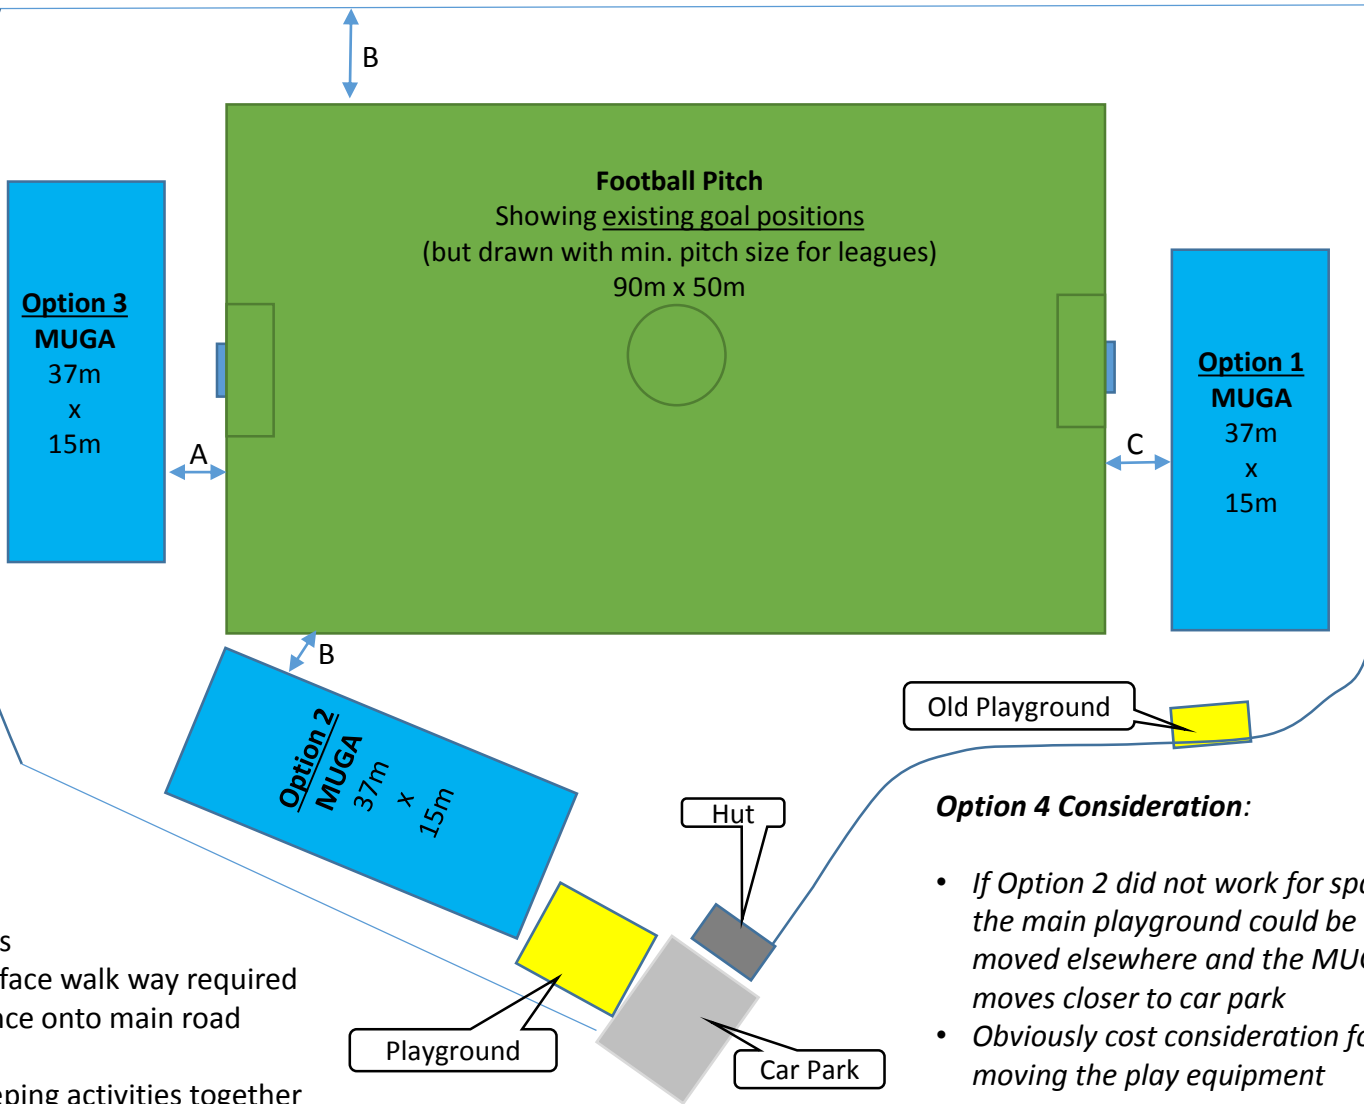

(Rough Survey Only)

Some Considerations for MUGA Position (rough survey only)

Option 3 Considerations:

- Close to traffic noise
- Minimal houses to disturb
- Close to school
- Possibility of balls going over fence onto road
- Could put higher fence but potential visual impact
- Visual impact from historic church
- Football pitch would need to be moved closer to rectory end to avoid ball damage to MUGA fencing (See A)
- Further from car parking and community hall
- Close to pub for food and drinks after game

Option 2 (TBC) Considerations:

- Little traffic noise
- Very minimal disturbance to houses
- Close to car park, minimal hard surface walk way required
- Little chance of balls going over fence onto main road
- Slight visual from historic church
- Close to children's play ground, keeping activities together
- Close to community hall facilities
- This option will need further detailed surveying to ensure it fits, this is only my quick rough measurements. This one is more of a squeeze than it looks on here but I have tried it to see if it works. Football pitch would need to be moved closer to rectory drive way (See B). There may just be enough room, will be depending on space required for hedge cutting.

Option 4 Consideration:

- *If Option 2 did not work for space, the main playground could be moved elsewhere and the MUGA moves closer to car park*
- *Obviously cost consideration for moving the play equipment*

Option 1 Considerations:

- No traffic noise
- Potential disturbance to houses
- No balls going onto roads
- Possibility of balls going over fence into neighbouring properties and fields.
- Could put higher fence but potential visual impact but not too great and impact
- No visual impact from historic church
- Football pitch would need to be moved closer to church end to avoid ball damage to MUGA fencing (See C). Can't move too close to church due to balls landing on road
- Further from car parking and community hall, need long hard pathway
- There is an old playground which could be made into seating/picnic/BBQ area?
